PROFILE

Computer Science undergraduate (graduating 2027) who ships production software end to end. I built **Movely**, a live vehicle rental & sales marketplace for Guinea, and **Dab City Basket Teams**, a bilingual club website. I have 3+ years of web and mobile experience with Angular, Spring Boot, Laravel and Flutter. Fluent in French and English.

EXPERIENCE

Full-Stack Developer · Movely (movely.africa) · Remote — 2026 – Present

- Built a two-sided vehicle rental & sales marketplace: customers rent verified cars, and owners list their own vehicles.
- Implemented identity-verified onboarding and in-app digital rental contracts.
- Designed a versioned, paginated REST API (v1) covering vehicles, reviews moderation, ads, site settings and visitor analytics.
- Live catalogue with filters, GNF pricing with promotions, and service zones. Mobile app currently in development.

Angular 19 · TypeScript · Spring Boot · REST API · SQL

Designer & Front-End Developer · Dab City Basket Teams (dabcitybasketteams.org) · Freelance — 2026

- Designed the club's brand system and built its bilingual (FR/EN) Angular site: roster, schedule & results, news, events.
- Built event registration with limited-capacity sign-ups, plus membership, sponsor and newsletter flows. Accessible by default.

Angular 22 · TypeScript · i18n · Figma

Mobile Developer · E-Cash · Guinea — Dec 2022 – Present

- Built the Flutter front end of a delivery app with real-time order tracking, order management and secure user flows.
- Integrated REST APIs for authentication, orders, notifications and payments.

Flutter · Dart · Provider · REST API

Java Software Developer · CodeAlpha · Remote — Apr 2025 – Sep 2026

- Developed Java applications applying OOP design, data handling and clean, maintainable code practices.

Computer Programmer (Apprenticeship) · Orange · Guinea — Mar 2023 – Aug 2024

- On-site software development in a work-study programme, plus Orange Digital Center training in mobile development (Kotlin).

Web Developer · Service Informatique de Guinée · Seasonal, remote — Mar 2022 – Present

- Built and maintain the company website (sinformatiqueguinee.com) presenting services and a client contact pipeline.

SELECTED PROJECTS

Gambian Go: Multi-role E-commerce API — Laravel · PostgreSQL · JWT

- REST API with four roles (buyer, seller, driver, admin), role-based permissions, cart, orders and delivery workflow.

Multi-Store Stock Manager · Money Transfer System — Node.js · Laravel · SQL

- Multi-tenant inventory system with real-time low-stock alerts. Back-office transfer system using secure redemption codes and an agent dashboard.

AIU Field Booking · AIU Heart-Failure Chatbot — Laravel · Botpress

- Campus sports-field reservations with double-booking prevention. A health Q&A assistant on heart failure.

EDUCATION

B.Sc. (Hons) Computer Science — 2024 – 2027
Albukhary International University, Malaysia

BTech, Computer & Information Sciences — 2021 – 2023
Université Gamal Abdel Nasser de Conakry, Guinea

SKILLS

Frontend Angular, TypeScript, JavaScript, HTML/CSS, Bootstrap

Backend Java, Spring Boot, Laravel/PHP, Node.js, REST, JWT

Mobile Flutter, Dart, Kotlin (basics)

Data & Tools MySQL, PostgreSQL, SQLite, Git/GitHub, Postman, Figma, Docker (basics)

Languages French (native), English (professional)
